

BUC SDG17

Partnership for goals

Relation to support the goals:

BUC provides environment and atmosphere for scientific research at the university characterized by: dynamic interactive and creative abilities. Students, Researcher and Entrepreneurs will be open to the recent discoveries and to the new horizons of knowledge to realize all changes at the societal, cultural and environmental levels. In fact, that comes in harmony and is compatible with Egypt's 2030 Strategy for sustainable development.

1- Badr University Technology Innovation Commercialization Office – TICO

BUC-TICO has established to activates the role of research and innovation inside the University and connect the University with private sector for the purpose of finding innovative and technological solutions for industrial problems and issues related to the demands. BUC-TICO supports innovation and technology in areas that empower entrepreneurship and establish R&D projects. BUC-TICO consists of Technology Transfer Office, TTO; Grant and International Cooperation Office, GICO; Transfer Office, Technology Innovation Support Center, TISC.

2- BUC Entrepreneurship – Club E-Club:

An entrepreneur club has been established and its structure has been formed. We have the passion and the intention to spread the spirit of Entrepreneurship in the community starting with the University community.

3- BUC Incubator

Deliver Entrepreneurs to lead the Future and become one of the pioneer business incubators in Egypt and the Middle East. The idea of establishing a business incubator at Badr University in Cairo comes as a accompaniment to BUC strategic plan and to embrace talented and creative entrepreneurs from inside and outside BUC. BUC-GISI Lab will serve in many tracks Service, commercial, scientific and industrial technology and motivate young people to adopt entrepreneurship. It will provide services, expertise, equipment, feasibility studies, technical and administrative consultations.

BUC established many agreements with international and national organization as Wadhvani, Taxes women health university. 57357 hospital. In addition, selection two academic staff in the academic research scientific community for economic.

We have succeeded to build an Active Citizens, who is involved and is participating in the society. Their main concern is the prosperity of other citizens and should be aware that we are members in one community. They Represent a dynamic role in all societal constituents; starting by the family passing by neighborhoods, community, volunteering activities with (NGOs), workplace and political participation. It is a mixture of information, approach, skills and activities to subsidize and sustain democratic society. Active citizens of BUC Community, use their minds and hearts. By using our hearts, we go further to the level of a Critical Citizens, BUC Community have the values of tolerance, diversity and human rights as smart incubator. BUC established many educational agreements with different university, and organized many international conferences.

- Online Zoom session with Dr. akmal abdelrahman on the 27th of march 11:30 cairo local time .

Through international collaboration and research, review comparative approaches and develop international best practice on tackling the SDGs.

Technology has changed ways of collaboration and connectivity. Educators and technologist, have been working for years to integrate these changes to give more space and maximize the change for learning. Collaboration supports learning by enraging all members of the learning community. Social connectivism empower the learner to structure and create meaning (*cognitivism*) from his observations (*constructivism*) to gain the main knowledge for the specific field. That will help them to create patterns to be used in future. Thereby, transformation will have happened to the structural methods and the developed knowledge, due the rapid development to technology. There is a theory which is important and valid, that connectivism is important for instruction or curriculum. That encourages the educators to study deeply the digital learning and how it could affect the curriculum and the new generations. As contract with 57357, Eva pharm, IELTS garment

pharm for students training

Development is our main goal, we believe that promoting active citizenship will lead the new generations to think and act critically to reach a positive transformative change in society seeking welfare and prosperity for the community. We are working on the Sustainable Development (SD) dimensions to fulfill its 17 goals Sustainable Development Goals (17 SDGs). In fact, that comes in harmony and is compatible with Egypt's 2030 Strategy for sustainable development. Moreover, our goals are highly relevant and linked to the (SDGs). BUC is providing a climate and environment for scientific research at the university characterized by: dynamic interactive and creative abilities. University community, will be open to the recent discoveries and to the new horizons of knowledge to realize all changes at the societal, cultural and environmental levels. BUC invites researchers from the academic staff, students, alumni and children to explore their potential by offering them capacity building programs and activities in the different fields of research.

To be a Hub of innovation and scientific research, BUC invites researchers from the academic staff, students to offer our innovation and dedicate our efforts to community. Our aim is to serve humanity in general and the surrounding community in particular.

We have Established two main centers the first Center is the **BUC Entrepreneurship Center** in collaboration with **International Finance corporation(IFC) the development arm of the World bank** and the **BUC Employability Center**, both centers visions and missions are co-related.

BUC Entrepreneurship Center (BUC-Eship C): Under the super vision of BUC Entrepreneurship Center, we have implemented **BUC Entrepreneurship Club (E-Club)**. It is a club managed for students by students. for spreading the sprite of entrepreneurship in the university.

Employability Center: is a career advisory center and developing students' personal skills. It unfold their potentials and lead them to the right track.

BUC students established many volunteering activities in different faculty as Face book page ENNSA BUC
