

Badr University in Cairo

THE impact

SDG9: Industry, Innovation

### SDG 9

BUC has its Technology Innovation Support Center (TISC) supported by the National Academy of Scientific research and technology. It is concerned by Intellectual property rights. TISC has supported researchers in search for the prior art, Patent drafting and submitting three patents.

BUC Green Smart incubator has supported eight spinoffs for researchers from BUC and outside BUC.

Research income from industry and commerce in the required subject area we have research but we still have no income most of the researchers started to find a market place but not to the level get income for themselves and the University:

We have research in the following fields:

Stem medicine

Medicine

Arts& humanities

Social Sciences
